

Civil Construction Courses

Our civil construction training and assessment programs focus strongly on providing clients with plant operator competencies (nationally recognised) and skill set training that can be customised to suit individual client requirements.

We are committed to ensuring participants are equipped with the skills and knowledge necessary to carry out tasks **safely, competently and efficiently**. All training is compliant with national licensing requirements.

We offer operator training for the following:

- Skidsteer Loader
- Roller
- Grader
- Excavator
- Backhoe
- Front End Loader
- Dozer

Including:

- Personal safety.
- Machine shutdown and start up checks.
- Mechanical checks.
- Work safety, planning and organisation.
- Competently operate machinery.
- Shutdown equipment and secure site.
- Shutdown

Qualifications in Civil Construction are also available.

Testimonial

“The Skills Institute provides targeted, appropriate, time-efficient training to a diverse range of our employees on a number of high-risk tasks. The assessors adhere to a high standard of quality during the assessment process so I am comfortable that employees who gain certification can be relied on to perform their tasks safely.”

Joe Schumacher - Project Safety Coordinator
John Holland Group Pty Ltd
