

Managers and Supervisors

Short Course (2 Days)

BSBOHS407A

Occupational Health and Safety (OHS) is about ensuring safe and healthy working conditions, and preventing illness and injury in the workplace. This course introduces participants to the legislative requirements of the employer and employee, and to the preventative nature of workplace health and safety. Participants will gain the skills needed to describe the legal framework and strategies that act to safeguard workplace health and safety and to conduct workplace hazard inspections.

Course requirements: Participants will need to be employed or have access to an organisation to conduct an on-the-job project.

Course includes:

- Elements of OHS legislation.
- Consultation.
- Provision of OHS training.
- Basic risk management.
- Introduction to incident investigation.
- OHS record keeping.

Outcome: Statement of Attainment. Selected unit from Certificate IV in Occupational Health & Safety. *Monitor a safe workplace* (BSBOHS407A).
