

The Employer Pledge Program

FREE Literacy Support

The Skills Institute has started a new program to improve literacy in the workplace. Employers “pledge” to support employees by allowing time within work hours to develop their skills.

Training will:

- Improve the skills of your workforce.
- Increase productivity and save time at work.
- Keep up with technology.
- Improve customer service.
- Improve staff confidence and morale.

Our staff will speak to you and your employee to gain an understanding of your workplace and needs. There are two options available:

Basic Skills

Do your employees struggle with learning, reading, writing, maths or communicating? These skills are essential for business and in everyday life.

Advanced Skills

Prepare to start a qualification or choose from a wide range of topics such as:

- Report writing.
- Delivering a presentation.
- Understanding Excel.
- Complex problem solving, tasks and processes.

This training is available for a limited time.
